- Dampen Unwanted Outside Sounds

SUPERIOR CONSTRUCTION

Secure-Plus™ may look like an ordinary window, but it's not! A Secure-Plus™ window is windshield tough because it has been designed similar to the windshield in your car. Extensive testing shows that upon impact, broken glass tends to adhere to the durable, bonded inter-layer. Secure-Plus™ windows are available in extruded aluminum or PVC.

PLUS... for the advantages of laminated glass with a reduced solar heat gain, CWS offers Cardinal LOE² coatings. Though virtually invisible to the eye, Cardinal LOE² coatings reduce solar gains which reduce air conditioning costs.
